

ATV ITINERARY

- The day of departure you will need to meet at Adrift Adventures at least 15 minutes before the departure time to check in for the ATV trip. At our office you will receive instructions regarding the trip. Return times are approximate.

The Moab topography consists of a mix of slick rock, rocks, sand, gravel, and dirt. You can blaze through creek crossings, traverse along cliff bands, and navigate over drops, steps, and jumps. The area has miles of trails, most of them existing for decades, many forged out by uranium miners in the boom days of the 1950s. Traverse incomparable trails, witness stunning scenery, spot spectacular overlooks and vistas.

- You will be following our rig truck, with the machines, out to the trailhead, in your own vehicle. This is so that you don't have to wait the 30 minutes or more that it will take your guide to reload all the machines onto the trailer. That way you can either come back to our office for your river trip, or enjoy the rest of your day in the Moab area!
